SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

MARCH, 1926

[This publication is issued monthly for the dissemination of information, instructions, ruling, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force.

A file should be kept at each station for reference 1 A file should be kept at each station for reference.]

691. James A. Hamilton, Philadelphia, Pa.

Change in Name of Official Establishment

13. Jake Batt, 223 Callowhill Street, Philadelphia, Pa., instead of Batt & Stein.

*246. Keefe-LeStourgeon Co., South Summit Boulevard, Arkansas City, Kans., instead of Henneberry & Co.

350. C. Hohman & Sons (Inc.), 2026-2040 East Monument Street, Baltimore, Md., instead of C. Hohman & Sons.

906. Millers (Inc.), Trenton, N. J., instead of J. H. Miller.

^{*} Conducts slaughtering.

Change in Name and Address of Official Establishment

10. J. S. Hoffman Co. and Baker Food Products Co., 322 West Illinois Street, Chicago, Ill., instead of previous name and subsidiaries.

Substation Discontinued

Woonsocket, R. I., meat inspection, formerly under Providence, R. I.

Substation Made Station

Youngstown, Ohio, meat inspection has been made a separate station, effective April 12, with Mr. H. L. Bollinger, care Swift & Co., 262 Commerce Street, as inspector in charge.

Changes in Officials in Charge

Dr. H. Busman succeeds Dr. W. N. Neil (deceased) as inspector in charge, Chicago, Ill.

Dr. J. S. Jenison succeeds Doctor Busman as inspector in charge, Omaha,

Dr. C. F. Payne succeeds Doctor Jenison as inspector in charge, National Stock Yards, Ill.

Dr. T. A. Shipley succeeds Doctor Payne as inspector in charge, Denver, Colo. Dr. A. E. Behnke succeeds Doctor Shipley as inspector in charge, Sioux City,

Dr. A. F. Staub succeeds Doctor Behnke as inspector in charge, Milwaukee, Wis.

Dr. G. T. Cole succeeds Doctor Staub as inspector in charge, New Orleans, La. Dr. E. N. Tierney succeeds Doctor Cole as inspector in charge, Atlanta, Ga. Dr. C. F. Pinkham succeeds Doctor Tierney as inspector in charge, Leavenworth, Kans.

Dr. S. V. Ewers succeeds Dr. Burr Allen as inspector in charge, Yakima,

(Remove Doctor Allen.) Wash. Dr. A. S. Martin, P. O. box 309, succeeds Doctor Ewers as inspector in charge.

Moscow, Idaho. Dr. T. J. Kean, succeeds Dr. G. E. Repp as inspector in charge, Wilmington,

Dr. G. E. Repp succeeds Dr. G. H. Woolfolk as inspector in charge, Potts-

Dr. G. H. Woolfolk succeeds Dr. E. H. Baumann as inspector in charge, Albany, N. Y.
Dr. E. H. Baumann succeeds Dr. T. J. Kean as inspector in charge, Jersey City, N. J.

Correction in New Directory

On pages 14 and 31 add the following address to establishment 3-VV, Swift & Co., Charlotte, N. C.: 21st and Brevard Streets.

NOTICES REGARDING MEAT INSPECTION

DEATH OF DR. W. N. NEIL

Dr. Wesley N. Neil, veterinary inspector of the Bureau of Animal Industry and in charge of Federal meat inspection at Chicago, died there March 7. Neil has been an employee of the Bureau of Animal Industry since 1899 and is widely known among department workers for his professional attainments in veterinary science and as a capable executive. Because of these qualifications he was placed in charge of the force of nearly 380 employees engaged in Federal meat inspection and related work at Chicago, the largest field station of the bureau. Prior to his assignment to the Chicago station in 1914, Doctor Neil acted as inspector at Kansas City, Mo., Waterloo, Iowa, Wichita, Kans., and South Omaha, Nebr. He was 54 years of age. His successor at Chicago is Dr. Herman Busman, who was in charge of meat inspection at Omaha.

FALSE NAMES ON INEDIBLE-PRODUCT CERTIFICATES

The name describing inedible fats and other inedible products on inedible-product certificates shall not be false or misleading.

As no supervision is given the marking of inedible products other than the application of the term "inedible," the name applied to the containers shall not appear on certificates unless the name correctly describes the product.

of the term inedible, the name applied to the containers shall not appear on certificates unless the name correctly describes the product.

The terms "inedible grease" and "inedible fat" are applicable to all inedible fats, while such specific designations as "hog grease," "hog fat," "tallow," and "acidless tallow oil" are applicable only to products conforming to those names.

CLEAN CARS FOR BULK MEATS

Recent examination of railroad cars loaded in whole or in part with bulk meats received at various establishments revealed a lack of thoroughness in washing the cars before loading, and meats were soiled as a result of the unclean condition of the floors and sides of the cars.

Inspectors will give this subject particular attention and see that cars are

thoroughly clean before permitting them to be loaded with bulk meats.

USE OF LEAD-AND-WIRE SEALS DISCONTINUED

The sealing device consisting of a combination of lead and short piece of tinned wire, designated as lead-and-wire seal, heretofore used for various purposes in the meat-inspection service, will no longer be furnished. In lieu of the lead-and-wire seal other appropriate devices, such as the deadlock tag fastener, hog ring, lead disk and spool wire, or Edgar seal may be used.

Condemned in February, 1926: Beef, 7 pounds. Refused entry: Beef, 144 pounds; mutton, 42 pounds; pork, 1,904 pounds; total, 2,090 pounds.

PERMITTED DISINFECTANT

In accordance with the provisions contained in the regulations of this department governing the interstate movement of livestock (B. A. I. Order 292), the bureau has granted permission to Pitman-Moore Co., of Indianapolis, Ind., for the distribution and use of "Crestall Dip" under the name of "Tri-Krecide," in the general disinfection of cars, yards, and other premises. "Tri-Krecide" is identical with "Crestall Dip" manufactured by Baird & McGuire (Inc.), Boston, Mass.

LICENSES FOR VETERINARY BIOLOGICAL PRODUCTS

LICENSES ISSUED

United States veterinary license No. 133, dated March 11, 1926, was issued to The National Vaccine and Serum Co., 501 East Las Vegas Street, Colorado Springs, Colo., for hemorrhagic-septicemia aggressin.

United States veterinary license No. 163, dated March 2, 1926, was issued to the Fidelity Laboratories (Inc.), 1837 West Hickory Street, Oklahoma City, Okla., for anti-hog-cholera serum and hog-cholera virus.

United States veterinary license No. 178, dated March 16, 1926, was issued to the Fuller Biological Laboratory, 240 Main Street, Springville, N. Y., for chicken-pox vaccine and chicken-pox virus.

PERMIT ISSUED

Permit No. 6, dated March 3, 1926, was issued to Mr. A. Charklian, 500 Fifth Avenue, New York City, N. Y., for the importation of hemorrhagic-septicemia bacterin (bovine) and hemorrhagic-septicemia bacterin (ovine), manufactured by Laboratoire de Bacteriologie de Laigle, Laigle, France.

LICENSE TERMINATED

United States veterinary licenses No. 178, issued September 18, 1923, and July 25, 1924, to the Fuller Biological Laboratory, 104 Maple Avenue, Ithaca, N. Y., were terminated March 16, 1926, and license No. 178, dated March 16, was issued to the firm at its new location, as indicated above.

LICENSE SUSPENDED

United States veterinary license No. 124, held by the Anchor Serum Co., South St. Joseph, Mo., was suspended on February 4 for a period of 30 days, beginning March 22, 1926, as a result of the firm having misbranded and improperly handled serum procured of another producer, and in so doing violated paragraph 2, Regulation 11, paragraph 3, section 1, Regulation 12, and paragraphs 3, 6, and 7, section 11, Regulation 19, of B. A. I. Order 276, or regulations governing the preparation, sale, etc., of veterinary biologic products.

REGISTRATION OF OFFICIAL MAIL

The Postmaster General has requested that department employees use the registered mails as sparingly as possible. Quotation is made from his letter by the Director of Personnel and Business Administration, this department, under date of March 24, 1926, in P. R. A. Circular 27. For further information address that official:

"Although any article (such as a book, map, or merchandise, etc.) may be valued at several dollars, and for this reason thought necessary to send as registered mail, it should be borne in mind that the percentage of loss of ordinary mail is very small and that the cost to the Government as a whole of handling a number of such articles as registered mail would more than offset the value of the limited number of such articles, if any, which might become lost if transmitted by ordinary mail. Ordinarily, an article of this character is more likely to be stolen when registered than when sent as ordinary mail, as the registry indication calls attention to the fact that it is considered of sufficient value to register, whereas the same article if sent by ordinary mail would probably in a great majority of cases pass through the mails without special notice. No indemnity is paid for the loss of any official registered matter unless both postage and registry fee are paid."

The Secretary has assured the Postmaster General of full cooperation in this matter.

PERSONAL USE OF FRANKED ENVELOPES

Numerous instances of the unlawful use of franked envelopes have been reported to the bureau. Employees are informed that penalty envelopes can not be used for correspondence which does not relate exclusively to the business of the Federal Government, nor can they be used by other than Federal employees under any circumstances, except that when a Federal official desires some infor-

mation forwarded to him he may, under the Federal franking law, transmit with his request a self-addressed envelope for the return of the information requested. Bureau officers or employees shall in no event furnish to outsiders penalty envelopes in blank. The fact that the bureau is cooperating with the various States in certain lines of work does not change these instructions. It his connection bureau employees are informed that they should not use bureau stationery or franked envelopes for personal correspondence, even though stamps are used.

ELECTRIC FLASHLIGHTS USED IN BUREAU WORK

For use in several lines of work the bureau furnishes, from stock, electric flashlights and replacement bulbs and batteries. Observation over an extended period leads to the conclusion that more flashlights become unserviceable because of improper care and handling than from loss, accident, or natural wear. One of the most frequent causes of damage is the expanding of the battery cells, so that when they are forced out the electric contacts in the case are destroyed. This may be eliminated by removing exhausted battery cells immediately. If they are allowed to remain chemical action may develop, causing them to expand and stick in the case. Many returned flashlights seem to have been dropped or otherwise subjected to impact. Every employee intrusted with a flashlight is requested to handle it carefully and take every precaution to safeguard it as he would his personal property. Cooperation along these lines will prolong the life of the flashlight and thereby reduce expense.

INSTRUCTIONS RELATIVE TO REIMBURSEMENT ACCOUNTS

In the preparation of the standard Form 1012, reimbursement vouchers,

employees should be guided by the following:

Authorization number or numbers under which expenditures were made must always be indicated in the space provided on the front page above the center, following the words "Under authority."

Inspectors in charge should approve accounts on the front page in the space on

the lower left side, above "Immediate supervising official."

Care should be taken to enter items of expenditures in the proper columns. All items that ordinarily are classed as subsistence must be entered in the column so headed, and transportation, station, and incidental expenses in the column headed "Other." (See par. 52 of the Fiscal Regulations.) Failure to make entries in the proper column will be cause for returning accounts for correction.

While no space is specially provided on the memorandum Form 1012 for indicating the kind of work on which employees were engaged, yet this should be

invariably shown, preferably following last entries.

IMPORTATION AND DISPOSAL OF HAY AND STRAW PACKING MATERIALS, FEEDING MATERIALS AND FERTILIZERS

The attention of bureau inspectors engaged in supervising the importation and disposal of import hay and straw packing materials, feeding materials for live-stock, fertilizers, etc., also those engaged in the administration of B. A. I. Order 281, is directed to amendment 2 to B. A. I. Order 281 and amendment 3 to B. A. I. Order 286, which amendments will become effective on July 1, 1926. Attention is further directed to the following Declaration No. 4, of the Secretary of Agriculture, which supersedes Declaration No. 3, printed in Service and Regulatory Announcements for June, 1925:

DECLARATION NO. 4

Macci 15, 1926.

The Secretary of Agriculture having so determined, it is hereby declared that Norway, Ireland, and the Channel Islands, Australia, New Zealand, Japan, Guam, the Union of South Africa, Canada, Mexico, the islands of the West Indies, the Territory of Papua in British New Guinea, and the Cook, Fiji, Fanning, Washington, Marquesas, Samoa (Navigators), Society, Tonga (Friendly), New Hebrides, Gilbert, British Solomon, and Ellice groups of islands, in the South Pacific Ocean, are free from foot-and-mouth disease and rinderpest.

This declaration is made in accordance with section 2, Regulation 11, and with a view to amendment 3 (issued February 25, 1926, effective July 1, 1926) of the regulations governing the sanitary handling and control of hides, fleshings, hide cuttings, parings, and glue stock, sheepskins and goatskins and parts thereof, hair, wool, and other animal by-products, hay, straw, forage, or similar material offered for entry into the United States (B. A. I. Order 286), and will supersede Declaration No. 3 of this department, dated June 6,

NEW PUBLICATIONS OF THE BUREAU

[The bureau keeps no mailing list for sending publications to individual employees, but publications are sent in bulk to officers in charge for distribution to members of their forces. The number of copies sent varies with the subject or nature of the publication and the number and class of employees. Officers in charge will use their judgment and distribute publications to best advantage. So far as possible additional copies will be furnished on request.]
